

Professional summary

Full Stack Developer with 2+ years of experience in ASP.NET Core, React.js, and SQL Server, specializing in building scalable enterprise applications and REST APIs. Strong in frontend, backend, and database development with a proven ability to optimize performance and deliver user-focused solutions. Skilled in Dynamics 365, Azure DevOps, and Power Automate, with hands-on experience developing payment, user, and transaction modules, integrating external systems via REST APIs, and building modern UIs using React.js and Tailwind CSS.

- Full Stack Developer skilled in ASP.NET Core, React.js, and SQL Server, with experience building scalable enterprise apps and REST APIs.
- Strong in frontend development, backend logic, and database integration using modern frameworks.
- Proven ability to optimize system performance and deliver high-quality, user-focused solutions.
- Experienced in creating secure, modular, and maintainable application architectures.
- Proficient with Azure DevOps, Power Automate, and Dynamics 365 for development, automation, and deployments.
- Developed key modules for payment, user, and transaction management, enhancing process efficiency.
- Built and optimized C# plugins and custom workflows for accurate financial data synchronization in Dynamics 365.
- Integrated external systems using REST APIs, improving data flow efficiency.
- Delivered modern, responsive UI using React.js and Tailwind CSS, improving overall user experience.

Professional Work Experience

NOV 2023 – PRESENT

SR MANAGEMENT TECHNOLOGY CONSULTING LLC

Role : Full Stack Developer | D365 Consultant

Responsibilities:

- Developed and customized Dynamics 365 CRM modules using C#, JavaScript, and PCF controls to enhance user experience and automate business workflows.
- Designed, built, and deployed RESTful APIs using ASP.NET Web API for seamless integration between Dynamics 365 and external financial systems.
- Implemented React.js components to improve UI interactivity, responsiveness, and data handling efficiency.
- Created Power Automate flows to automate approval processes, reducing manual operations.
- Managed Azure DevOps CI/CD pipelines, including build, release, and deployment processes, ensuring smooth and reliable delivery of updates.

Tech : ASP.NET Core web API, React.js, SQL Server, Azure DevOps, Power Automate, Dynamics 365

- Designed and implemented core modules for user management and transaction processing.
- Built optimized C# plugins and workflows ensuring high data integrity and accurate financial synchronization.
- Integrated external financial systems using REST APIs, improving data flow reliability.
- Developed modern, responsive UI screens using React and Fluent UI, enhancing overall user experience.

Technical Skills

- Languages: C#, JavaScript, TypeScript
- Frontend: React.js, HTML5, CSS3, Bootstrap, Fluent UI
- Backend: ASP.NET Core, ASP.NET MVC, Web API
- Database: MS SQL Server, Entity Framework, LINQ
- Tools: Visual Studio, VS Code, Git, Azure DevOps, Postman

Education

BACHELOR OF ENGINEERING 2023

Dr. Babasaheb Ambedkar Technological

University Lonere Maharashtra

College : Bajaj Institute of Technology, Wardha
